<b>Office Action Summary</b>	<b>Application No.</b> 09/690,799	<b>Applicant(s)</b> BATIO, JEFFRY	
	<b>Examiner</b> Leonid Shapiro	<b>Art Unit</b> 2629	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Drawings***

On 09/11/06 Applicant notes the Examiner's objection to the drawings and plans to file replacement sheets shortly in a supplemental filing.

***Specification***

On 09/11/06 Applicant notes the Examiner's objection to the Specification and plans to file Substitute specification shortly in a supplemental filing.

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 16 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Limitations of claim 16: "Pivotal display screen rotatably coupled to the primary frame by a mounting arm;

said display screen configured to rotate in at least two planes, each plane being perpendicular to the other;

the mounting arm having a first end connected to a portion of the primary frame, a second end connected to a portion of said display screen, a first pivot mount disposed at said first end for pivotally mounting the display screen to said primary frame to facilitate movement in one of said planes, and a second pivot mount disposed at said second end for pivotally mounting the display screen to facilitate movement in another of said planes" do not shown in the Drawings or Specification.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear how limitations of claim 16: "Pivotal display screen rotatably coupled to the primary frame by a mounting arm;

said display screen configured to rotate in at least two planes, each plane being perpendicular to the other;

the mounting arm having a first end connected to a portion of the primary frame, a second end connected to a portion of said display screen, a first pivot mount disposed at said first end for pivotally mounting the display screen to said primary frame to facilitate movement in one of said planes, and a second pivot mount disposed at said second end for pivotally mounting the display screen to facilitate movement in another of said planes" could be implemented?

Rejections on merits could not be done due of non-sufficient support in Drawings, Specification and indefinite subject matter.
